

## PRESS RELEASE

### Rik Maenhout strengthens the MultiPress ERP software team

Integration of MultiPress MIS/ERP software into Agfa Apogee delivers unprecedented efficiency gain.

**Bruges, 15 April 2020** - Dataline, the market leader in ERP/MIS solutions for graphics production companies, has announced that Rik Maenhout has joined the company as of April 2020. He becomes Project Manager MultiPress for both Belgian and international operations.

Because Dataline is already thinking about how to continue its growth in the post-Corona era, the ambitious firm from Bruges is strengthening its existing team. Rik Maenhout will assist with the ongoing implementation of both national and international MultiPress projects. Rik is a familiar face in the graphics industry. With more than 25 years of experience, he is a truly results-oriented team player and a real hands-on expert in MultiPress. With a bachelor's degree in Graphical Techniques from Higo/Artevelde, he began his career at Crea Print Group and Die Keure with roles including team leader, project manager and supply chain officer.

Dirk Deroo, CEO of Dataline, comments: "MultiPress is still experiencing extraordinary growth both in Belgium and abroad. So Rik Maenhout's arrival at Dataline is extremely welcome. With Rik's extensive knowledge and experience of workflow reorganisation, MultiPress implementations and inventory management optimisations, Rik is the ideal person to help support newcomers as well as experienced professionals in MultiPress".

#### About Dataline and MultiPress

**Dataline Solutions** develops ERP business software for dynamic offset, digital, finishing, signage, large-format & textile printing companies (MultiPress) and advertising & communication agencies (QuoJob).

**MultiPress** is an MIS/ERP software solution developed for the needs of the graphics industry that links all administrative, commercial, financial, and logistics processes within a graphics company. It includes a CRM function, quotations, order management, logistics & shipment management, planning and invoicing. Integrating all production software a company might need, MultiPress automates the exchange of information. Administration, sales and production are linked in a fully integrated solution. MultiPress accelerates processes, increases efficiency, eliminates errors and ensures transparency of all costs. With more than 10,000 users, MultiPress is the standard MIS/ERP software in Belgium and the Netherlands. Growing throughout Europe, the software is now used in 19 countries and available in 11 language versions. For more information, visit [www.dataline.eu](http://www.dataline.eu).
